Apologies, Dave. I was using an old email address for you, apparently.

Mimi

Hi, Tom and Dave.

Especially given the recurring attention to pollinators, we'd love to be able to publicize the forthcoming book at the Glasgow SETAC meeting next month...but we need to know where you're at with the manuscript. Let me know how we can help, and I look forward to hearing from you.

Best,
Mimi

Dear Tom and Dave,

Just checking in to see how the revisions are coming on the pollinators book. If we are to have the book ready for launch at the Nashville meeting, we'll need to have the final manuscript in hand pretty quickly. Can you give us an estimate of when you think you'll be able to submit?

Hope you're doing well and look forward to hearing from you. If there's anything we can do to help or questions we can answer, please don't hesitate to ask.

Thanks,
Mimi
